

### **3. VISION**

Weston's vision has been, and continues to be, centred on three main principles: growth, innovation and flexibility. Weston seeks long term, stable growth in its operating segments, while accepting prudent operating risks through continuous capital investment supported by a strong balance sheet, with the goal of providing sustainable returns to its shareholders through a combination of common share price appreciation and dividends.

The Company believes that to be successful over the long term, it must deliver on what its customers and consumers want, today and in the future. The Company encourages innovation in order to provide consumers with new products and convenient services at competitive prices that meet consumers' everyday household needs.

Looking ahead, the Company plans to achieve these goals by focusing on its long term operating and financial strategies as discussed below.
