

2009 Active Healthy Kids Grant Recipients

We are delighted to announce the first grant recipients for the *2009 Healthy Active Kids Grants*. In total nearly \$160,000 was donated to 12 organizations across Canada.

We received numerous applications for funding from large and small charities across Canada and the committee reviewed a short-list of 26 organizations. The organizations were selected to receive funding based upon their innovative strategies to engage children in the after-school hours with programs that increased their physical activities levels or improved their understanding about nutrition. All organizations are located near a Weston plant.

The 2009 Grant Recipients are:

Eastern Canada:

Boys and Girls Clubs of St John's, NL
