(a) Review of Annual Audited Financial Statements

The Audit Committee shall review the annual audited financial statements, together with the Auditor's report thereon, the related Management's Discussion & Analysis ("MD&A") and any accompanying news releases, before recommending them for approval by the Board, to assess whether or not it is reasonable to conclude, based on its reviews and discussions, that the annual audited financial statements present fairly in all material respects in accordance with GAAP (which includes International Financial Reporting Standards) the financial condition, results of operations and cash flows of the Company.

In conducting their review, the Audit Committee should:

- discuss the annual audited financial statements, MD&A and any accompanying news releases with management and the Auditor;

- consider any other matter which in its judgment should be taken into account in reaching its recommendation to the Board concerning the approval of the financial statements;
- consider, based on reviews and discussions with management and the auditor, whether the appropriate accounting policies and practices have been selected and applied consistently;
- consider, based on reviews and discussions with management and the auditor, whether the internal audit function is performing satisfactorily in relation to the financial statements; and
