For further details on the effect of consolidation, refer to Section 8, "Non-GAAP and Other Financial Measures", of this MD&A. Loblaw has two reportable operating segments, retail and financial services, with all material operations carried out in Canada. # Management's Discussion and Analysis

## 1. Overall Financial Performance

Loblaw delivered another quarter of consistent operational and financial performance. The combination of everyday value offerings, personalized PC Optimum™ loyalty rewards, impactful promotions, and new store openings drove higher levels of customer engagement. Canadians recognized its differentiated value, quality, service, and convenience across its nationwide network of stores and digital platforms, driving sales growth of \$857 million in the quarter. The food retail business attracted more customers and larger baskets, resulting in both the Super Market and Hard Discount banners outperforming their peer group on tonnage market share growth in the quarter. Loblaw's Hard Discount and Real Canadian Superstore banners again outperformed conventional stores, benefitting from the consumer shift to value. Loblaw opened 19 Maxi and NoFrills stores in the quarter, bringing discount options to more communities across the country. In drug retail, pharmacy and healthcare services contributed to strong results, led by specialty drug growth. Front store sales momentum continued in cosmetics and over-the-counter ("OTC") categories, which were only partially offset by the previously announced strategic exit from certain electronics items. Loblaw remains on track with its full-year plan to open approximately 76 new stores and 100 new pharmacy clinics, opening 47 new stores and 55 new pharmacy clinics year-to-date, providing access to affordable, quality groceries and healthcare to underserved communities across Canada.

Choice Properties had another strong quarter, with Same-Asset NOI<sup>(4)</sup> and Funds from Operations<sup>(1)</sup> growth reflecting robust tenant demand for its grocery-anchored retail portfolio and its well-located industrial assets. Choice Properties continued to progress its commercial development pipeline, completing seven retail intensifications in the quarter, and strengthened its financial position by extending its debt maturity profile. Looking ahead, Choice Properties remains focused on disciplined financial management while creating long-term value for unitholders.

### 1.1 Consolidated Results of Operations

The Company operates through its two reportable operating segments: Loblaw and Choice Properties, each of which are publicly traded entities. As such, the Company's financial statements reflect and are impacted by the consolidation of Loblaw and Choice Properties. The consolidation of these entities into the Company's financial statements reflects the impact of eliminations, intersegment adjustments and other consolidation adjustments, which can positively or negatively impact the Company's consolidated results. Additionally, cash and short-term investments and other investments held by the Company, and all other company level activities that are not allocated to the reportable operating segments, such as net interest expense, corporate activities and administrative costs are included in GWL Corporate. To help our investors and stakeholders understand the Company's financial statements and the effect of consolidation, the Company reports its results in a manner that differentiates between the Loblaw segment, the Choice Properties segment, the effect of consolidation of Loblaw and Choice Properties, and lastly, GWL Corporate.

The Company's results reflect the year-over-year impact of the fair value adjustment of the Trust Unit liability as a result of the significant changes in Choice Properties' unit price, recorded in net interest expense and other financing charges. The Company's results are impacted by market price fluctuations of Choice Properties' Trust Units on the basis that the Trust Units held by Unitholders, other than the Company, are redeemable for cash at the option of the holder and are presented as a liability on the Company's consolidated balance sheet. The Company's financial results are negatively impacted when the Trust Unit price increases and positively impacted when the Trust Unit price declines.

# Management's Discussion and Analysis

## NET EARNINGS AVAILABLE TO COMMON SHAREHOLDERS OF THE COMPANY

Net earnings available to common shareholders of the Company in the third quarter of 2025 were \$477 million (\$1.23 per common share), an increase of \$462 million (\$1.20 per common share) compared to the same period in 2024. The increase was due to the favourable year-over-year net impact of adjusting items totaling \$405 million (\$1.02 per common share) and an improvement of \$57 million (\$0.18 per common share) in the consolidated underlying operating performance of the Company.

The favourable year-over-year net impact of adjusting items totaling \$405 million (\$1.02 per common share) was primarily due to:

- the favourable year-over-year impact of the fair value adjustment of the Trust Unit liability of \$501 million (\$1.26 per common share) due to an increase in Choice Properties' unit price, which resulted in a fair value loss of \$67 million in the third quarter of 2025 compared to a fair value loss of \$568 million in the prior year; and
- the favourable year-over-year impact of lower amortization of intangible assets at Loblaw of \$56 million (\$0.15 per common share) primarily related to certain intangible assets associated with the 2014 acquisition of Shoppers Drug Mart Corporation ("Shoppers Drug Mart") which are now fully amortized;

partially offset by,

- the unfavourable year-over-year impact of the prior year recovery related to the President's Choice Bank ("PC Bank") commodity tax matter at Loblaw of \$66 million (\$0.17 per common share);
- the unfavourable year-over-year impact of the fair value adjustment on investment properties of \$50 million (\$0.13 per common share) driven by Choice Properties, net of the effect of consolidation;
- the unfavourable year-over-year impact of the fair value adjustment on Choice Properties' investment in real estate securities of Allied Properties Real Estate Investment Trust ("Allied") of \$14 million (\$0.03 per common share) as a result of the change in Allied's unit price;
- the unfavourable impact of the wind-down of the Theodore & Pringle optical business at Loblaw of \$12 million (\$0.03 per common share); and
- the unfavourable year-over-year impact of the deferred tax recovery of \$10 million (\$0.03 per common share) related to the outside basis difference in certain Loblaw shares as a result of GWL's participation in Loblaw's Normal Course Issuer Bid ("NCIB").

Adjusted net earnings available to common shareholders of the Company<sup>(1)</sup> in the third quarter of 2025 were \$533 million, an increase of \$57 million, or 12.0%, compared to the same period in 2024. The increase was driven by the favourable year-over-year impact of \$52 million from the contribution of the publicly traded operating companies, and the favourable year-over-year impact of \$5 million at GWL Corporate due to a fair value gain on other investments, partially offset by an increase in adjusted net interest expense and other financing charges<sup>(1)</sup> and an increase in income tax expense related to GWL's participation in Loblaw's NCIB.

Adjusted diluted net earnings per common share<sup>(1)</sup> were \$1.37 in the third quarter of 2025, an increase of \$0.18 per common share, or 15.1%, compared to the same period in 2024. The increase was due to the performance in adjusted net earnings available to common shareholders<sup>(1)</sup> as described above and the favourable impact of shares purchased for cancellation over the last 12 months (\$0.04 per common share) pursuant to the Company's NCIB.

Year-to-date net earnings available to common shareholders of the Company were \$818 million (\$2.08 per common share) compared to \$651 million (\$1.60 per common share), an increase of \$167 million (\$0.48 per common share) compared to the same period in 2024. The increase was due to the favourable year-over-year net impact of adjusting items totaling \$76 million (\$0.14 per common share) and an improvement of \$91 million (\$0.34 per common share) in the consolidated underlying operating performance of the Company.

The favourable year-over-year net impact of adjusting items totaling \$76 million (\$0.14 per common share) was primarily due to:

- the favourable year-over-year impact of prior year charges related to the settlement of class action lawsuits of \$253 million (\$0.63 per common share);
- the favourable year-over-year impact of lower amortization of intangible assets at Loblaw of \$96 million (\$0.23 per common share) primarily related to certain intangible assets associated with the 2014 acquisition of Shoppers Drug Mart which are now fully amortized; and
- the favourable year-over-year impact of the fair value adjustment on Choice Properties' investment in real estate securities of Allied of \$39 million (\$0.10 per common share) as a result of the change in Allied's unit price;

partially offset by,

- the unfavourable year-over-year impact of the fair value adjustment of the Trust Unit liability of \$183 million (\$0.49 per common share) as a result of the increase in Choice Properties' unit price;
- the unfavourable year-over-year impact of the prior year recovery related to the PC Bank commodity tax matter at Loblaw of \$66 million (\$0.16 per common share);
- the unfavourable year-over-year impact of the prior year reversal of a transaction related provision of \$39 million (\$0.10 per common share) that was determined to be no longer required at Choice Properties;
- the unfavourable impact of the wind-down of the Theodore & Pringle optical business at Loblaw of \$12 million (\$0.03 per common share); and
- the unfavourable year-over-year impact of the deferred tax expense of \$13 million (\$0.04 per common share) related to the outside basis difference in certain Loblaw shares as a result of GWL's participation in Loblaw's NCIB.

Year-to-date adjusted net earnings available to common shareholders of the Company<sup>(1)</sup> were \$1,273 million, an increase of \$91 million, or 7.7%, compared to the same period in 2024. The increase was driven by the favourable year-over-year impact of \$101 million from the contribution of the publicly traded operating companies, partially offset by the unfavourable year-over-year impact of \$10 million at GWL Corporate. The unfavourable year-over-year impact at GWL Corporate was primarily due to an increase in adjusted net interest expense and other financing charges<sup>(1)</sup> and an increase in income tax expense as a result of GWL's participation in Loblaw's NCIB, partially offset by the favourable year-over-year impact of the fair value adjustment on other investments.

Adjusted diluted net earnings per common share<sup>(1)</sup> were \$3.26, an increase of \$0.34 per common share, or 11.6%, compared to the same period in 2024. The increase was due to the performance in adjusted net earnings available to common shareholders<sup>(1)</sup> as described above and the favourable impact of shares purchased for cancellation over the last 12 months (\$0.11 per common share) pursuant to the Company's NCIB.

The decrease was due to the favourable year-over-year net impact of adjusting items totaling \$491 million, itemized in the table above, partially offset by an increase in adjusted net interest expense and other financing charges<sup>(1)</sup> of \$34 million. Included in the adjusting items was the favourable year-over-year impact of the fair value adjustment of the Trust Unit liability of \$501 million due to an increase in Choice Properties' unit price, which resulted in a fair value loss of \$67 million in the third quarter of 2025 compared to a fair value loss of \$568 million in the prior year.

In the third quarter of 2025, adjusted net interest expense and other financing charges<sup>(1)</sup> increased by \$34 million, primarily driven by:

- retail square footage was 72.9 million square feet, a net increase of 1.4 million square feet, or 2.0%, compared to the same period in 2024. In the third quarter of 2025, 27 food and drug stores were opened and 7 food and drug stores were closed.

Financial services revenue was \$403 million, an increase of \$21 million, or 5.5%, compared to the same period in 2024, primarily driven by higher interest income, higher insurance commission income and higher sales attributable to The Mobile Shop™.

**OPERATING INCOME** Loblaw operating income in the third quarter of 2025 was \$1,374 million, an increase of \$55 million, or 4.2%, compared to the same period in 2024. The increase was driven by an improvement in underlying operating performance of \$100 million and an unfavourable year-over-year net impact of adjusting items totaling \$45 million as described below:

- the improvement in underlying operating performance of \$100 million was primarily due to:
  - an improvement in retail due to an increase in retail gross profit, partially offset by an increase in SG&A and depreciation and amortization; and
  - an improvement in the underlying operating performance of financial services.
- the unfavourable year-over-year net impact of adjusting items totaling \$45 million was primarily due to:
  - the unfavourable year-over-year impact of the prior year recovery related to the PC Bank commodity tax matter of \$155 million; and
  - the unfavourable impact of the wind-down of the Theodore & Pringle optical business of \$30 million; partially offset by,
  - the favourable year-over-year impact of lower amortization of intangible assets of \$141 million primarily related to certain intangible assets associated with the 2014 acquisition of Shoppers Drug Mart which are now fully amortized.

Year-to-date Loblaw operating income was \$3,515 million, an increase of \$471 million, or 15.5%, compared to the same period in 2024. The increase was driven by a favourable year-over-year net impact of adjusting items totaling \$237 million and an improvement in underlying operating performance of \$234 million, as described below:

- the favourable year-over-year net impact of adjusting items totaling \$237 million was primarily due to:
  - the favourable year-over-year impact of lower amortization of intangible assets of \$245 million primarily related to certain intangible assets associated with the 2014 acquisition of Shoppers Drug Mart which are now fully amortized;
  - the favourable year-over-year impact of the prior year charges related to the settlement of class action lawsuits of \$164 million;

  - the unfavourable impact of the wind-down of the Theodore & Pringle optical business of \$30 million; and
  - the unfavourable year-over-year impact of fair value adjustments on fuel and foreign currency contracts of \$5 million.
- the improvement in underlying operating performance of \$234 million was primarily due to:

Retail adjusted EBITDA<sup>(1)</sup> increased by \$134 million compared to the same period in 2024, driven by an increase in retail gross profit of \$298 million, partially offset by an increase in retail SG&A of \$164 million.

- Retail gross profit percentage of 31.1% increased by 20 basis points compared to the same period in 2024, primarily driven by improvements in shrink.
- Retail SG&A as a percentage of sales was 20.0%, flat compared to the same period in 2024, primarily due to operating leverage from higher sales, offset by incremental costs related to opening new stores and the automated distribution facility and the year-over-year impact of certain real estate activities.

Financial services adjusted EBITDA<sup>(1)</sup> increased by \$14 million compared to the same period in 2024, primarily driven by higher revenue as described above, and the year-over-year favourable impact of the expected credit loss provision. The increase was partially offset by higher customer acquisition expense from lapping of prior year ongoing benefits associated with the renewal of a long-term agreement with Mastercard International Incorporated.

# Management's Discussion and Analysis

Year-to-date Loblaw adjusted EBITDA<sup>(1)</sup> was \$5,642 million, an increase of \$322 million, or 6.1%, compared to the same period in 2024, driven by an increase in retail of \$303 million and an increase in financial services of \$19 million.

Year-to-date retail adjusted EBITDA<sup>(1)</sup> increased by \$303 million, compared to the same period in 2024, driven by an increase in retail gross profit of \$692 million, partially offset by an increase in retail SG&A of \$389 million.

- Retail gross profit percentage of 31.5% increased by 10 basis points compared to the same period in 2024, primarily driven by improvements in shrink, partially offset by changes in sales mix in drug retail pharmacy categories.
- Retail SG&A as a percentage of sales was 20.1%, a favourable decrease of 10 basis points compared to the same period in 2024, primarily due to operating leverage from higher sales and the year-over-year impact of certain real estate activities, partially offset by incremental costs related to opening new stores and the automated distribution facility.

**DEPRECIATION AND AMORTIZATION** Loblaw depreciation and amortization in the third quarter of 2025 was \$810 million, a decrease of \$93 million compared to the same period in 2024. The decrease was primarily driven by the impact of lower amortization related to certain intangible assets associated with the 2014 acquisition of Shoppers Drug Mart which are now fully amortized, partially offset by an increase in depreciation of leased assets, and an increase in depreciation of fixed assets related to opening new stores and conversions of retail locations.

Year-to-date Loblaw depreciation and amortization was \$2,115 million, a decrease of \$157 million compared to the same period in 2024. The decrease was primarily driven by the impact of lower amortization related to certain intangible assets associated with the 2014 acquisition of Shoppers Drug Mart which are now fully amortized, a decrease in depreciation of information technology ("IT") assets and the impact of prior year accelerated depreciation as a result of network optimization. This was partially offset by an increase in depreciation of leased assets, and an increase in depreciation of fixed assets related to opening new stores and conversions of retail locations.

Depreciation and amortization in the third quarter of 2025 and year-to-date included the amortization of intangible assets related to the acquisitions of Shoppers Drug Mart and Lifemark of \$14 million (2024 – \$155 million) and \$139 million (2024 – \$384 million), respectively.

**CONSOLIDATION OF FRANCHISES** Loblaw has more than 500 franchise food retail stores in its network. In the third quarter of 2025 and year-to-date, Loblaw's net earnings attributable to non-controlling interests were \$16 million and \$78 million, respectively, a decrease of \$24 million or 60.0%, and a decrease of \$27 million or 25.7%, when compared to the same periods in 2024. The decrease in non-controlling interests in the third quarter of 2025 and year-to-date, was primarily driven by a decrease in franchisee earnings after profit sharing.

## 3.2 Liquidity

The Company (excluding Loblaw and Choice Properties) expects that cash and cash equivalents, short-term investments, future operating cash flows and the amounts available to be drawn against its committed credit facility will enable it to finance its capital investment program and fund its ongoing business requirements, including working capital, pension plan funding requirements and financial obligations, over the next 12 months. The Company (excluding Loblaw and Choice Properties) does not foresee any impediments in obtaining financing to satisfy its long-term obligations.

Loblaw expects that cash and cash equivalents, short-term investments, future operating cash flows and the amounts available to be drawn against committed credit facilities will enable it to finance its capital investment program and fund its ongoing business requirements over the next 12 months, including working capital, pension plan funding requirements and financial obligations. PC Bank expects to obtain long-term financing for its credit card portfolio through the issuance of Eagle Credit Card Trust ("Eagle") notes and guaranteed investment certificates.

Choice Properties expects to fund its ongoing operations and finance future growth primarily through the use of: existing cash, cash flows from operations, short-term financing through the committed credit facility, the issuance of unsecured debentures and equity (including Exchangeable Units) (subject to market conditions), and secured mortgages. Given reasonable access to capital markets, Choice Properties does not foresee any impediments in obtaining financing to satisfy its short-term and long-term financial obligations, including its capital investment commitments.

## 5. Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that all material information relating to the Company and its subsidiaries is gathered and reported to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure.

Management is also responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS Accounting Standards.

In designing such controls, it should be recognized that due to inherent limitations, any control, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and may not prevent or detect misstatements. Projections of any evaluations of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Additionally, management is required to use judgment in evaluating controls and procedures.

**CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING** There were no changes in the Company's internal control over financial reporting in the third quarter of 2025 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## 6. Enterprise Risks and Risk Management

A detailed full set of risks inherent in the Company's business are included in the Company's Annual Information Form ("AIF") for the year ended December 31, 2024 and the MD&A included in the Company's 2024 Annual Report, which are hereby incorporated by reference. ## 7. Outlook<sup>(3)</sup>

The Company continues to expect adjusted net earnings<sup>(1)</sup> to increase due to the results from its operating segments, and to use excess cash to repurchase shares.

**Loblaw** Loblaw will continue to execute on retail excellence while advancing its growth initiatives with the goal of delivering consistent operational and financial results in 2025. Loblaw's businesses remain well positioned to meet the everyday needs of Canadians.

In 2025, Loblaw's results will include the impact of a 53rd week, which is expected to benefit adjusted net earnings per common share<sup>(1)</sup> growth by approximately 2%. On a full-year comparative basis, excluding the impact of the 53rd week, Loblaw continues to expect:

- its retail business to grow earnings faster than sales;
- to continue investing in its store network and distribution centres by investing a net amount of \$1.9 billion in capital expenditures, which reflects gross capital investments of approximately \$2.2 billion, net of approximately \$300 million of proceeds from property disposals; and
- to return capital to shareholders by allocating a significant portion of free cash flow to share repurchases.

Based on its year-to-date operating and financial performance and momentum exiting the third quarter, Loblaw now expects full year adjusted net earnings per common share<sup>(1)</sup> growth to increase slightly from high single-digits into the low double-digits, excluding the impact of the 53rd week.

**Choice Properties** Choice Properties is focused on capital preservation, delivering stable and growing cash flows and net asset value appreciation. Its high-quality portfolio is primarily leased to necessity-based tenants and logistics providers, who are less sensitive to economic volatility and therefore provide stability to its overall portfolio. Choice Properties will continue to advance its development program, with a focus on commercial developments, which provides the best opportunity to add high-quality real estate to its portfolio at a reasonable cost and drive net asset value appreciation over time.

Choice Properties is confident that its business model, stable tenant base, strong balance sheet and disciplined approach to financial management will continue to benefit its operations. Supported by the strength of its year-to-date financial and operating performance, Choice Properties raised its 2025 outlook for FFO<sup>(1)</sup> per unit diluted<sup>(4)</sup>. In 2025, Choice Properties is now targeting:

- stable occupancy across the portfolio, resulting in approximately 2% - 3% year-over-year growth in Same-Asset NOI, cash basis<sup>(4)</sup>;
- annual FFO<sup>(1)</sup> per unit diluted<sup>(4)</sup> in a range of \$1.06 to \$1.07, reflecting approximately 3% - 4% year-over-year growth; and
- strong leverage metrics, targeting Adjusted Debt to EBITDAFV<sup>(4)</sup> below 7.5x.

## 8. Non-GAAP and Other Financial Measures

The Company uses non-GAAP and other financial measures and ratios in this document, such as: adjusted EBITDA and adjusted EBITDA margin, adjusted net earnings attributable to shareholders of the Company, adjusted net earnings available to common shareholders of the Company, adjusted diluted net earnings per common share, effect of consolidation, rolling year adjusted return on average equity attributable to common shareholders of the Company, rolling year adjusted return on capital, GWL Corporate free cash flow, free cash flow and Choice Properties Funds from Operations, among others. In addition to these items, the following measures are used by management in calculating adjusted diluted net earnings per common share: adjusted operating income, adjusted net interest expense and other financing charges, adjusted earnings before income taxes, adjusted income taxes and adjusted effective tax rate. The Company believes these non-GAAP and other financial measures provide useful information to both management and investors with regard to accurately assessing the Company's financial performance and financial condition for the reasons outlined below.

Further, certain non-GAAP measures and other financial measures of Loblaw and Choice Properties are included in this document. For more information on these measures, refer to the materials filed by Loblaw and Choice Properties, which are available on [www.sedarplus.ca](http://www.sedarplus.ca) or at [www.loblaw.ca](http://www.loblaw.ca) or [www.choicereit.ca](http://www.choicereit.ca), respectively.

Management uses these and other non-GAAP and other financial measures to exclude the impact of certain expenses and income that must be recognized under GAAP when analyzing underlying consolidated and segment operating performance, as the excluded items are not necessarily reflective of the Company's underlying operating performance and make comparisons of underlying financial performance between periods difficult. The Company adjusts for these items if it believes doing so would result in a more effective analysis of underlying operating performance. The exclusion of certain items does not imply that they are non-recurring.

These measures do not have a standardized meaning prescribed by GAAP and therefore they may not be comparable to similarly titled measures presented by other publicly traded companies, and should not be construed as an alternative to other financial measures determined in accordance with GAAP.

(i) Depreciation and amortization for the calculation of adjusted EBITDA excludes amortization of intangible assets acquired with Shoppers Drug Mart and Lifemark, recorded by Loblaw.

The following items impacted adjusted EBITDA in 2025 and 2024:

**Wind-down of Theodore & Pringle optical business** In the third quarter of 2025, Loblaw entered into an agreement with Specsavers Canada Inc. ("Specsavers") to open Specsavers locations in select Loblaw grocery stores nationwide, resulting in the wind-down of the Theodore & Pringle optical business operations. Accordingly, Loblaw recorded charges of \$30 million in SG&A, primarily related to the write-down of optical equipment, labour and other closure costs.

**Fair value adjustment on investment properties** The Company measures investment properties at fair value. Under the fair value model, investment properties are initially measured at cost and subsequently measured at fair value. Fair value is determined based on available market evidence. If market evidence is not readily available in less active markets, the Company uses alternative valuation methods such as discounted cash flow projections or recent transaction prices. Gains and losses on fair value are recognized in operating income in the period in which they are incurred. Gains and losses from disposal of investment properties are determined by comparing the fair value of disposal proceeds and the carrying amount and are recognized in operating income.

# Management's Discussion and Analysis

**Amortization of intangible assets acquired with Shoppers Drug Mart and Lifemark** The acquisition of Shoppers Drug Mart in 2014 included approximately \$6 billion of definite life intangible assets, which are being amortized over their estimated useful lives. In 2024, the annual amortization associated with the acquired intangibles was \$479 million. The annual amortization will decrease to approximately \$130 million in 2025, of which \$110 million, \$6 million and \$8 million was recorded in the first, second and third quarters of 2025, respectively. Annual amortization will be approximately \$30 million in 2026 and thereafter.

The acquisition of Lifemark in 2022 included approximately \$299 million of definite life intangible assets, which are being amortized over their estimated useful lives.

**Loss (gain) on sale of non-operating properties** In the third quarter of 2025, Loblaw recorded a loss related to the sale of non-operating properties to a third party of \$2 million (2024 – nil). Year-to-date, Loblaw recorded a gain related to the sale of non-operating properties of \$13 million (2024 – nil).

**Fair value adjustment of investment in real estate securities** Choice Properties received Allied Class B Units as part of the consideration for the Choice Properties disposition of six office assets to Allied in 2022. Choice Properties recognized these units as investments in real estate securities. The investment in real estate securities is exposed to market price fluctuations of Allied trust units. An increase (decrease) in the market price of Allied trust units results in income (a charge) to operating income.

**Fair value adjustment of derivatives** Loblaw is exposed to commodity price and U.S. dollar exchange rate fluctuations. In accordance with Loblaw's commodity risk management policy, Loblaw enters into exchange traded futures contracts and forward contracts to minimize cost volatility relating to fuel prices and the U.S. dollar exchange rate. These derivatives are not acquired for trading or speculative purposes. Pursuant to Loblaw's derivative instruments accounting policy, changes in the fair value of these instruments, which include realized and unrealized gains and losses, are recorded in operating income. Despite the impact of accounting for these commodity and foreign currency derivatives on Loblaw's reported results, the derivatives have the economic impact of largely mitigating the associated risks arising from price and exchange rate fluctuations in the underlying commodities and U.S. dollar commitments.

**Recovery related to PC Bank commodity tax matter** In 2022, the Tax Court of Canada ("Tax Court") released a decision relating to PC Bank, a subsidiary of Loblaw. The Tax Court ruled that PC Bank is not entitled to claim notional input tax credits for certain payments it made to Loblaw's Inc. in respect of redemptions of loyalty points. PC Bank subsequently filed a Notice of Appeal with the Federal Court of Appeal ("FCA") and in March 2024, the matter was heard by the FCA. In the third quarter of 2024, the FCA released its decision and reversed the decision of the Tax Court. As a result, PC Bank reversed charges of \$155 million, including \$111 million initially recorded in 2022. In addition, \$10 million was recorded related to interest income on cash tax refunds.

**Sale of Wellwise** In the fourth quarter of 2024, Loblaw entered into an agreement with a third party to sell all of the shares of its *Wellwise* business, including 42 *Wellwise* locations, for cash proceeds and recorded a net fair value write-down of \$23 million in SG&A. The transaction closed in the first quarter of 2025 and Loblaw recorded a gain of \$5 million in SG&A.

**Charges related to settlement of class action lawsuits** On July 24, 2024, the Company and Loblaw entered into binding Minutes of Settlement and on January 31, 2025, the Company and Loblaw entered into a Settlement Agreement to resolve nationwide class action lawsuits against them relating to their role in an industry-wide price-fixing arrangement involving certain packaged bread products. In the second quarter of 2024, the Company and Loblaw recorded charges of \$256 million and \$164 million, respectively, in SG&A, relating to the settlement and related costs. The Settlement Agreement was approved by the Ontario Superior Court of Justice in May 2025 and the Quebec Superior Court in July 2025.

**Transaction costs and other related recoveries** In the second quarter of 2024, Choice Properties recorded a reversal of a transaction related provision for \$39 million that was determined to be no longer required.

**ADJUSTED NET INTEREST EXPENSE AND OTHER FINANCING CHARGES** The Company believes adjusted net interest expense and other financing charges is useful in assessing the ongoing net financing costs of the Company.

The following table reconciles adjusted net interest expense and other financing charges to GAAP net interest expense and other financing charges reported for the periods ended as indicated.

Adjusted net interest expense and other financing charges	\$ 351	\$ 317	\$ 934	\$ 862

The following items impacted adjusted net interest expense and other financing charges in 2025 and 2024:

**Fair value adjustment of the Trust Unit liability** The Company is exposed to market price fluctuations as a result of the Choice Properties Trust Units held by Unitholders other than the Company. These Trust Units are presented as a liability on the Company's consolidated balance sheets as they are redeemable for cash at the option of the holder, subject to certain restrictions. This liability is recorded at fair value at each reporting date based on the market price of Trust Units at the end of each period. An increase (decrease) in the market price of Trust Units results in a charge (income) to net interest expense and other financing charges.

**Recovery related to PC Bank commodity tax matter** In the third quarter of 2024, \$10 million was recorded related to interest income on cash tax refunds on the PC Bank commodity tax matter discussed above.

**ADJUSTED NET EARNINGS AVAILABLE TO COMMON SHAREHOLDERS AND ADJUSTED DILUTED NET EARNINGS PER COMMON SHARE** The Company believes that adjusted net earnings available to common shareholders and adjusted diluted net earnings per common share are useful in assessing the Company's underlying operating performance and in making decisions regarding the ongoing operations of its business.

**ROLLING YEAR ADJUSTED RETURN ON AVERAGE EQUITY ATTRIBUTABLE TO COMMON SHAREHOLDERS OF THE COMPANY AND ROLLING YEAR ADJUSTED RETURN ON CAPITAL** The Company uses the following metrics to measure its leverage and profitability. The definitions of these ratios are presented below.

**Rolling Year Adjusted Return on Average Equity Attributable to Common Shareholders of the Company** Adjusted net earnings available to common shareholders of the Company for the last four quarters divided by average total equity attributable to common shareholders of the Company. Refer to Section 3.4, "Financial Condition", of this MD&A.

**Rolling Year Adjusted Return on Capital** Tax-effected adjusted operating income for the last four quarters divided by average capital where capital is defined as total debt, plus equity attributable to shareholders of the Company, less cash and cash equivalents, and short-term investments. Refer to Section 3.4, "Financial Condition", of this MD&A.

**CHOICE PROPERTIES' FUNDS FROM OPERATIONS** Choice Properties considers Funds from Operations to be a useful measure of operating performance as it adjusts for items included in net income that do not arise from operating activities or do not necessarily provide an accurate depiction of its performance.

Funds from Operations is calculated in accordance with the Real Property Association of Canada's Funds from Operations & Adjusted Funds from Operations for IFRS Accounting Standards issued in January 2022.

## Note 1. Nature and Description of the Reporting Entity

George Weston Limited ("GWL" or the "Company") is a Canadian public company incorporated in 1928, with its registered office located at 22 St. Clair Avenue East, Toronto, Canada M4T 2S5. The Company's parent is Wittington Investments, Limited ("Wittington").

The Company operates through its two reportable operating segments: Loblaw Companies Limited ("Loblaw") and Choice Properties Real Estate Investment Trust ("Choice Properties"). Effect of consolidation includes eliminations, intersegment adjustments and other consolidation adjustments. Cash and short-term investments and other investments held by the Company, and all other company level activities that are not allocated to the reportable operating segments, such as net interest expense, corporate activities and administrative costs are included in GWL Corporate.

Loblaw has two reportable operating segments, retail and financial services, with all material operations carried out in Canada. Loblaw's retail segment consists primarily of food retail and drug retail. Loblaw provides Canadians with grocery, pharmacy and healthcare services, other health and beauty products, apparel, general merchandise and financial services.

Choice Properties owns, manages and develops a high-quality portfolio of commercial and residential properties across Canada.

Quarterly net earnings are affected by seasonality and the timing of holidays, relative to the Company's interim periods. Accordingly, quarterly performance is not necessarily indicative of annual performance. Historically, Loblaw has earned more revenue in the fourth quarter relative to the preceding quarters in its fiscal year.

## Note 2. Material Accounting Policies

The material accounting policies and critical accounting estimates and judgments as disclosed in the Company's 2024 audited annual consolidated financial statements have been applied consistently in the preparation of these unaudited interim period condensed consolidated financial statements.

These unaudited interim period condensed consolidated financial statements are presented in Canadian dollars.

In the third quarter of 2025, the Company completed a three-for-one stock split of its outstanding common shares. The stock split was implemented by way of a stock dividend, with shareholders receiving two additional common shares for each common share held. The stock split was effective at the close of business on August 18, 2025, for shareholders of record as of the close of business on August 14, 2025. All share, equity award and per share amounts presented herein have been retrospectively adjusted to reflect the stock split.

**STATEMENT OF COMPLIANCE** These unaudited interim period condensed consolidated financial statements are prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting", as issued by the International Accounting Standards Board ("IFRS Accounting Standards" or "GAAP") and should be read in conjunction with the Company's 2024 audited annual consolidated financial statements and accompanying notes.

These unaudited interim period condensed consolidated financial statements were approved for issuance by the Company's Board of Directors on November 13, 2025.

### Note 3. Subsidiaries

(ii) GWL participates in Loblaw's Normal Course Issuer Bid ("NCIB") program in order to maintain its proportionate percentage ownership.

(iii) Class B LP Units ("Exchangeable Units") are economically equivalent to Trust Units, receive distributions equal to the distributions paid on Trust Units and are exchangeable, at the holder's option, into Trust Units.

## Note 5. Income Taxes

For the third quarter of 2025, income tax expense was \$338 million (2024 – \$303 million) and the effective tax rate was 27.7% (2024 – 40.8%). The decrease in the effective tax rate was primarily attributable to the quarter-over-quarter impact of the non-taxable fair value adjustment of the Trust Unit liability, partially offset by the non-taxable portion of the gain from real estate dispositions during the third quarter of 2024 and an increase in tax expense related to temporary differences in respect of the Company's investment in certain Loblaw shares as a result of GWL's participation in Loblaw's NCIB.

On a year-to-date basis, income tax expense was \$923 million (2024 – \$698 million) and the effective tax rate was 32.9% (2024 – 30.4%). The increase in the effective tax rate was primarily attributable to the year-over-year impact of the non-taxable fair value adjustment of the Trust Unit liability and the non-taxable portion of the gain from real estate dispositions during the third quarter of 2024.

PC Bank maintains and monitors a co-ownership interest in credit card receivables with independent securitization trusts, including Eagle Credit Card Trust ("Eagle") and Other Independent Securitization Trusts, in accordance with its financing requirements.

The associated liability of Eagle is recorded in long-term debt (see note 10). The associated liabilities of credit card receivables securitized to the Other Independent Securitization Trusts are recorded in short-term debt.

As at October 4, 2025, the aggregate gross potential liability under letters of credit for the benefit of the Other Independent Securitization Trusts was \$50 million (October 5, 2024 – \$54 million; December 31, 2024 – \$72 million), which represented 9% (October 5, 2024 – 9%; December 31, 2024 – 9%) of the securitized credit card receivables amount.

Under its securitization programs, PC Bank is required to maintain, at all times, a credit card receivable pool balance equal to a minimum of 107% of the outstanding securitized liability. ## Note 14. Contingent Liabilities

In the ordinary course of business, the Company is involved in and potentially subject to, legal actions and proceedings. In addition, the Company is subject to tax audits from various tax authorities on an ongoing basis. As a result, from time to time, tax authorities may disagree with the positions and conclusions taken by the Company in its tax filings or legislation could be amended or interpretations of current legislation could change, any of which events could lead to reassessments.

There are a number of uncertainties involved in such matters, individually or in aggregate, and as such, there is a possibility that the ultimate resolution of these matters may result in a material adverse effect on the Company's reputation, operations, financial condition or performance in future periods. It is not currently possible to predict the outcome of the Company's legal actions and proceedings with certainty. Management regularly assesses its position on the adequacy of accruals or provisions related to such matters and will make any necessary adjustments.

The following is a description of the Company's significant legal proceedings:

Shoppers Drug Mart was previously served with an Amended Statement of Claim in a class action proceeding that has been filed in the Ontario Superior Court of Justice ("Superior Court") by licensed associates ("Associates"), claiming various declarations and damages resulting from Shoppers Drug Mart's alleged breaches of the Associate Agreement. The class action comprises all of Shoppers Drug Mart's current and former licensed Associates residing in Canada, other than in Quebec, who were parties to Shoppers Drug Mart's 2002 and 2010 forms of the Associate Agreement. On July 9, 2013, the Superior Court certified as a class proceeding portions of the action. A summary judgment trial of the matter was held in December 2022 and on February 17, 2023, the Superior Court released its decision in relation to those summary judgment motions (the "Decision"). The Superior Court dismissed the plaintiffs' claims on the majority of the issues including a request for damages at this stage of proceedings. The Superior Court also held that Shoppers Drug Mart breached the 2002 form of Associate Agreement when it did not remit certain amounts that it received from generic drug manufacturers to Associates. On March 20, 2023, the plaintiffs filed a Notice of Appeal and on April 4, 2023, Loblaw filed a Notice of Cross-Appeal. A hearing for the appeals was held on February 14, 2024 and on February 15, 2024. On August 29, 2024, the Court of Appeal dismissed both the appeal and cross appeal, with the exception that the plaintiff's appeal was allowed to correct the amount Shoppers Drug Mart received in professional allowances during the class period. Accordingly, Loblaw has not recorded any amounts related to the potential liability associated with this lawsuit. Loblaw does not believe that the ultimate resolution of this matter will have a material adverse impact on its financial condition or prospects.

In 2017, the Company and Loblaw announced actions taken to address their role in an industry-wide price-fixing arrangement involving certain packaged bread products. The arrangement involved the coordination of retail and wholesale prices of certain packaged bread products over a period extending from late 2001 to March 2015. Under the arrangement, the participants regularly increased prices on a coordinated basis. Class action lawsuits were commenced against the Company and Loblaw as well as a number of other major grocery retailers and another bread wholesaler. On July 24, 2024, the Company and Loblaw entered into binding Minutes of Settlement and on January 31, 2025, the Company and Loblaw entered into a Settlement Agreement with the lawyers representing consumers to settle those class action lawsuits for \$500 million. The Company and Loblaw will each pay for a portion of the settlement, with the Company paying \$247 million and Loblaw paying \$253 million. Loblaw will receive credit for the \$96 million it previously paid to customers in the form of Loblaw cards, resulting in it being required to pay \$157 million in cash towards the settlement. The Settlement Agreement was approved by the Ontario Superior Court in May 2025 and the Quebec Superior Court in July 2025. On March 3, 2025, the settlement funds were paid into a trust account. In December 2019, a proposed class action on behalf of independent distributors was commenced against the Company (the "ID Class Action"). It is too early to predict the outcome of the ID Class Action but the Company does not believe that the ultimate resolution of such legal proceeding will have a material adverse impact on its financial condition or prospects. As a result of admission of participation in the arrangement and cooperation in the Competition Bureau's investigation, the Company and Loblaw will not face criminal charges or penalties. In response to such class action lawsuits, certain major grocery retailers have crossclaimed against the Company and Loblaw, and the Company and Loblaw believe such crossclaims are without merit.

In August 2018, the Province of British Columbia filed a class action against numerous opioid manufacturers and distributors, including Loblaw and its subsidiaries, Shoppers Drug Mart Inc. and Sanis Health Inc. The claim contains allegations of breach of the Competition Act, fraudulent misrepresentation and deceit and negligence, and seeks unquantified damages for the expenses incurred by the federal government, provinces, and territories of Canada in paying for opioid prescriptions and other healthcare costs related to opioid addiction and abuse in Canada. During the second quarter of 2021, the claim against Loblaw Companies Limited was discontinued. In May 2019, two further opioid-related class actions were commenced in each of Ontario and Quebec against a large group of defendants, including Sanis Health Inc. In February 2022, the plaintiff and Sanis Health Inc. agreed to settle the Quebec action for a nominal amount, with no admission of liability and for the express purpose of avoiding the delays, disruption, and expenses associated with the litigation. The settlement has been approved by the court and is now final. On December 12, 2024, the Ontario action was dismissed against Sanis Health Inc., with costs. In December 2019, a further opioid-related class action was commenced in British Columbia against a large group of defendants, including Sanis Health Inc., Shoppers Drug Mart Inc. and Loblaw. The allegations in the civil British Columbia class action are similar to the allegations against manufacturer defendants in the Province of British Columbia class action, except that the December 2019 claim seeks recovery of damages on behalf of opioid users directly. In April 2021, Loblaw, Shoppers Drug Mart Inc. and Sanis Health Inc. were served with another opioid-related class action that was started in Alberta against multiple defendants. In February 2025, the Company and Loblaws Inc. were also served with the claim. The claim seeks damages on behalf of municipalities and local governments in relation to public safety, social services, and criminal justice costs allegedly incurred due to the opioid crisis. In September 2021, Loblaw, Shoppers Drug Mart Inc. and Sanis Health Inc. were served with a class action started in Saskatchewan by Peter Ballantyne Cree Nation and Lac La Ronge Indian Band on behalf of all Indigenous, Metis, First Nation and Inuit communities and governments in Canada to recover costs they have incurred as a result of the opioid crisis, including healthcare costs, policing costs and societal costs. In October 2024, the claim was discontinued against Shoppers Drug Mart Inc. In January 2024, Shoppers Drug Mart Inc. was served with a second class action in Saskatchewan started by Lac La Ronge Indian Band. The case is brought on behalf of Band members and is claiming damages relating to abatement costs, the diversion of financial and other resources, the reduction in the value of the reserve lands and interests, and lost tax revenues. Shoppers Drug Mart Inc. is being sued as a representative of an international defendant subclass of opioid “dealers” and Sanis Health Inc. is a proposed supplier class member. The Company and Loblaw believe these proceedings are without merit and are vigorously defending them. The Company and Loblaw do not currently have any significant accruals or provisions for these matters recorded in the unaudited interim period condensed consolidated financial statements.

In 2022, the Tax Court of Canada (“Tax Court”) released a decision relating to PC Bank, a subsidiary of Loblaw. The Tax Court ruled that PC Bank is not entitled to claim notional input tax credits for certain payments it made to Loblaws Inc. in respect of redemptions of loyalty points. PC Bank subsequently filed a Notice of Appeal with the Federal Court of Appeal (“FCA”) and in March 2024, the matter was heard by the FCA. In the third quarter of 2024, the FCA released its decision and reversed the decision of the Tax Court. As a result, PC Bank reversed charges of \$155 million, including \$111 million initially recorded in 2022. In addition, \$10 million was recorded related to interest income on cash tax refunds. Certain taxation years subsequent to the periods covered by the FCA decision remain under review by the tax authorities.

**INDEMNIFICATION PROVISIONS** The Company from time to time enters into agreements in the normal course of its business, such as service and outsourcing arrangements, lease agreements in connection with business or asset acquisitions or dispositions, and other types of commercial agreements. These agreements by their nature may provide for indemnification of counterparties. These indemnification provisions may be in connection with breaches of representations and warranties or in respect of future claims for certain liabilities, including liabilities related to tax and environmental matters. The terms of these indemnification provisions vary in duration and may extend for an unlimited period of time. In addition, the terms of these indemnification provisions vary in amount and certain indemnification provisions do not provide for a maximum potential indemnification amount. Indemnity amounts are dependent on the outcome of future contingent events, the nature and likelihood of which cannot be determined at this time. As a result, the Company is unable to reasonably estimate its total maximum potential liability in respect of indemnification provisions. Historically, the Company has not made any significant payments in connection with these indemnification provisions.

## Note 16. Segment Information

The Company has two reportable operating segments: Loblaw and Choice Properties. Effect of consolidation includes eliminations, intersegment adjustments and other consolidation adjustments. Cash and short-term investments and other investments held by the Company, and all other company level activities that are not allocated to the reportable operating segments, such as net interest expense, corporate activities and administrative costs are included in GWL Corporate.

The accounting policies of the reportable operating segments are the same as those described in the Company's summary of material accounting policies (see note 2). The Company measures each reportable operating segment's performance based on operating income less adjusting items and before depreciation and amortization ("Adjusted EBITDA"). No reportable operating segment is reliant on any single external customer.
