Alpha Omega Management Corporation

PLAN SUMMARY FOR EACH SUBSTANCE

ETHYL ALCOHOL (CAS NO. 64-17-5)
Statement of Intent
In accordance with s. 4(1)1 of the Toxics Reduction Act and the Facility commitment to operate under the Alpha Omega Corporate Environmental Policy which requires facilities to strive to incorporate best available technologies which are commercially realistic in its operations. The policy promotes continuous improvements in environmental performance, including energy efficiency to reduce consumption of non-renewable natural resources and source reduction as a means to reduce waste, which are necessary components to toxic substance reduction planning.
Objectives
The Alpha Omega Management Toronto facility does not intend to implement a reduction option for Ethyl Alcohol through the Toxic Reduction Act and Regulation. The Alpha Omega Management Toronto facility will continue to investigate process efficiencies and continuous improvement efforts through the Alpha Omega Corporate Environmental Policy, business initiatives and product requirements in an effort to reduce the creation of Ethyl Alcohol in the future.
Description of Creation of Substance
All of the Ethyl Alcohol created is a result of the natural fermentation of yeast during the baking process. It is considered a biogenic substance in this instance. The Ethyl Alcohol is released during the baking process.
Rationale for No Option(s) to be Implemented
In accordance with s. 4(1)6 of the Toxic Reduction Act, the Alpha Omega Management Corporation Toronto facility has completed a detailed technical, and in some cases an economical, review of all proposed options within the seven mandatory categories and as a result of this in-depth evaluation, is choosing not to implement any of the options. The Alpha Omega Management Corporation Toronto facility will continue to investigate process efficiencies and continuous improvement efforts through the Alpha Omega Corporate Environmental Policy, business initiatives and product requirements, as it has done continually throughout the years, in an effort to reduce toxic substances where feasible.

This plan summary accurately reflects the Toxic Reduction Plan that has been prepared by RWDI AIR Inc. on behalf of Alpha Omega Management Corporation Toronto facility for Ethyl Alcohol, dated March 2, 2017.

Alpha Omega Mangement Corporation

Certification by Highest Ranking Employee

As of March 2, 2017, I, Nadir Zaki, certify that I have read the toxic substance reduction plans for the toxic substances referred to below and am familiar with their contents, and to my knowledge the plans are factually accurate and comply with the *Toxics Reduction Act, 2009* and Ontario Regulation 455/09 (General) made under that Act.

Substance

▪ Ethyl Alcohol (CAS No. 64-17-5).....

Date of Certified Plan

March 2, 2017

Nadir Zaki
Managing Director
Alpha Omega Management Corporation

Alpha Omega Management Corporation

Certification by Licensed Planner

As of March 2, 2017, I, Brad Bergeron, certify that I am familiar with the processes at Alpha Omega Management Corporation that use or create the toxic substances referred to below, that I agree with the estimates referred to in subparagraphs 7 iii, iv and v of subsection 4 (1) of the *Toxics Reduction Act, 2009* that are set out in the toxic substance reduction plans referred to below for the toxic substances and with the exception of the regulatory deadline, that the plans complies with all other requirements with the Act and Ontario Regulation 455/09 (General) made under that Act.

Substance

▪ Ethyl Alcohol (CAS No. 64-17-5)

Date of Certified Plan
