PLAN SUMMARY FOR EACH SUBSTANCE

ETHYL ALCOHOL (CAS NO. 64-17-5)
Statement of Intent
In accordance with s. 4(1)1 of the Toxics Reduction Act and the Facility commitment to operate under the George Weston Limited Corporate Environmental Policy which requires facilities to strive to incorporate best available technologies which are commercially realistic in its operations. The policy promotes continuous improvements in environmental performance, including energy efficiency to reduce consumption of non-renewable natural resources and source reduction as a means to reduce waste, which are necessary components to toxic substance reduction planning.
Objectives
The Weston Bakeries Concord facility does not intend to implement a reduction option for Ethyl Alcohol through the Toxic Reduction Act and Regulation. The Weston Bakeries Concord facility will continue to investigate process efficiencies and continuous improvement efforts through the George Weston Limited Corporate Environmental Policy, business initiatives and product requirements in an effort to reduce the creation of Ethyl Alcohol in the future.
Description of Creation of Substance
All of the Ethyl Alcohol created is a result of the natural fermentation of yeast during the baking process. It is considered a biogenic substance in this instance. The Ethyl Alcohol is released during the baking process.
Rationale for No Option(s) to be Implemented
In accordance with s. 4(1)6 of the Toxic Reduction Act, the Weston Bakeries Concord facility has completed a detailed technical, and in some cases an economical, review of all proposed options within the seven mandatory categories and as a result of this in-depth evaluation, is choosing not to implement any of the options. The Weston Bakeries Concord facility will continue to investigate process efficiencies and continuous improvement efforts through the George Weston Limited Corporate Environmental Policy, business initiatives and product requirements, as it has done continually throughout the years, in an effort to reduce toxic substances where feasible.

This plan summary accurately reflects the Toxic Reduction Plan that has been prepared by RWDI AIR Inc. and Weston Foods' Weston Bakeries Concord facility for Ethyl Alcohol, dated December 12, 2013.

Weston Foods

Certification by Highest Ranking Employee

As of December 12, 2013, I, Amita Kanwar, certify that I have read the toxic substance reduction plans for the toxic substances referred to below and am familiar with their contents, and to my knowledge the plans are factually accurate and comply with the *Toxics Reduction Act, 2009* and Ontario Regulation 455/09 (General) made under that Act.

Substance

▪ Ethyl Alcohol (CAS No. 64-17-5).....

Date of Certified Plan

December 12, 2013
